## CAREER OBJECTIVE

---

A highly motivated and detail-oriented Computer Science undergraduate with a strong foundation in Java, C, Python, Data Structures, DBMS, and problem-solving. Passionate about software development and continuously improving technical skills through coding practice and certifications. Seeking an opportunity as a Java Developer / Software Developer to contribute effectively while growing professionally.

## EDUCATION

---

**B.Tech in CSE**, Ashoka Women's Engineering College, Kurnool (2023 – 2027) | Percentage: 8.1%

**Intermediate (MPC)**, Deeksha Junior College, Kurnool (2021 – 2023) | Percentage: 91.3%

**Secondary Education**, MSZP Girls High School, Kurnool (2020 – 2021) | Percentage: 97.0% (School Topper)

## TECHNICAL SKILLS

---

**Languages:** Java, C, Python

**Web:** HTML, CSS

**Core:** DBMS, OS, OOP, Data Structures and Algorithms

**Tools:** Tableau

## PROJECTS

---

### Sales & Revenue Analysis Dashboard

Developed an interactive dashboard to analyze sales and revenue data, providing insights into business performance, trends, and product-level analysis.

- Imported and processed data from Excel/CSV files for analysis
- Visualized key KPIs such as total sales, revenue trends, and top-performing products
- Designed interactive charts, filters, and slicers for dynamic data exploration
- Enabled data-driven decision-making through clear and structured insights

**Technologies:** Excel / CSV, Data Visualization Tools (Power BI / Tableau / Excel Dashboards)

### Student Management System (Python)

Developed a menu-driven console application using Python to manage student records efficiently with CRUD operations.

- Implemented Create, Read, Update, Delete operations
- Used Python dictionaries for structured data storage
- Designed a user-friendly console interface
- Handled user inputs and basic error validation

**Technologies:** Python

## INTERNSHIP

---

### Data Analytics Intern

SmartBridge Educational Services Pvt. Ltd. (in collaboration with Andhra Pradesh State Council of Higher Education)

Duration: 6 Months (240 Hours) | Mar 2026

- Worked on data analytics concepts and real-world datasets using Tableau
- Designed interactive dashboards to visualize business and sales data
- Analyzed data trends and generated insights to support decision-making

- Gained hands-on experience in data cleaning, transformation, and visualization

**Technologies:** Tableau, Data Analytics, Data Visualization

## CODING PROFILES

---

- HackerRank – <https://www.hackerrank.com/profile/bandaharini1919>
- CodeChef – <https://www.codechef.com/users/bandaharini>
- GitHub – <https://github.com/bandaharini>

## CORE COMPETENCIES

---

- Problem Solving
- Logical Thinking
- Debugging
- Team Collaboration
- Communication Skills
- Quick Learning Ability

## CERTIFICATIONS

---

- Data Analytics with Tableau – SmartBridge
- AI Literacy – IBM SkillsBuild
- LLM for Young Developers – Foundational Course
- AI Skills Passport – EY & Microsoft

## INTERESTS

---

- Problem solving and coding challenges
- Learning new AI technologies
- Exploring data structures and algorithms
- Reading technology and software development blogs

## DECLARATION

---

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
